

VALIDATION IN SPRING BOOT

STEP 1 -

```
<dependency>  
  <groupId>org.springframework.boot</groupId>  
  <artifactId>spring-boot-starter-validation</artifactId>  
</dependency>
```

STEP 2 -

```
public interface LevelOneValidation {  
}
```

STEP 3 -

```
public interface LevelTwoValidation {  
}
```

STEP 4 -

```
import javax.validation.GroupSequence;  
  
@GroupSequence(value = { LevelOneValidation.class,  
LevelTwoValidation.class })  
public interface MainLevelValidation {  
}
```
